## SOFTWARE ENGINEER

Software Engineer with 4+ years of experience specializing in Java, Spring Boot, and scalable backend systems. Proven ability to design robust REST APIs, collaborate across architecture and product teams, and drive cloud-integrated solutions in fast-paced agile environments. Passionate about clean code, system design, and mentoring junior developers.

---

## STRENGTHS AND EXPERTISE

Languages: Java, Python, JavaScript, HTML, R, PHP, C, PowerShell  
Frontend Development: React.js, Angular, HTML5, CSS3  
Backend Development: Spring Boot, Django, Node.js  
Databases: MySQL, PostgreSQL, Firebase, SQLite  
Dev Tools & Platforms: REST APIs, Power BI, Kafka, Git, JIRA, ServiceNow, CI/CD pipelines  
Methodologies: Agile (Scrum), Software Development Lifecycle (SDLC)

## PROFESSIONAL EXPERIENCE

**Dell Technologies**  
**Software Engineer II**

**March 2021 – March 2025**

Demonstrated strong leadership in driving software development projects to success, fostering collaboration across teams and ensuring timely project delivery with a perfect success rate. Played a key role in designing and implementing innovative subscription-based software solutions, contributing to significant market expansion and increased customer acquisition. Continuously stayed ahead of industry trends, leveraging emerging technologies to enhance system performance, security, and scalability.

Accomplishments:

- **Power BI (Global DRE Incident Dashboard):** Developed and maintained a comprehensive Power BI dashboard to track and analyze global DRE incidents, improving incident visibility and response efficiency.
- **ServiceNow (Incident Management):** Resolved incidents, primarily focusing on event-integrated issues, ensuring seamless IT service operations and minimizing downtime.
- **Certificate Renewal (Putty Servers):** Managed SSL/TLS certificate renewals for Putty servers, ensuring security compliance and uninterrupted service availability.
- **Kafka (Data Streaming & Management):** Led Kafka topic creation, alteration, purging, and migration to enhance real-time data processing and system scalability.
- **Salesforce Achievements:** Earned **160 badges** and accumulated **67,275 points**, demonstrating expertise in Salesforce technologies and continuous learning in CRM solutions.
- **Cross-Department Collaboration:** Led smooth teamwork across departments, ensuring projects were completed on time with a perfect success rate.
- **Continuous Learning & Innovation:** Stayed updated with the latest industry trends to remain at the forefront of technology, driving innovation and efficiency in software development.

## Internship

September 2020 - December 2020

### Software Engineer

- **Report Writing & Analysis:** Conducted in-depth analysis on assigned topics and prepared detailed reports based on research and understanding.
- **Workplace Exposure:** Gained hands-on experience in a professional environment, understanding workplace dynamics, industry standards, and best practices.
- **Project Execution:** Worked on various projects throughout the internship, applying technical knowledge and problem-solving skills to deliver quality outcomes.
- **Trailhead Achievements:** Earned **3 mini badges** and **1 super badge** from Trailhead, enhancing expertise in Salesforce and cloud-based solutions.
- **Daily Task Documentation:** Maintained a structured logbook to track daily tasks, ensuring proper documentation and weekly supervisor approvals.

## Freelance Graphic Design

### Self-Employed

- **Graphic Design & Branding:** Designed flyers, posters, logos, banners, T-shirts, and business cards for various clients, creating visually compelling brand identities.
- **Web & Mobile Development:** Developed responsive websites and mobile applications for both Android and iOS platforms, ensuring seamless user experience across devices.
- **Video Editing & Content Creation:** Edited promotional videos and social media content to enhance brand engagement and improve audience reach.

---

## ACHIEVEMENTS

- **Professional & Technical Excellence:**
  - Mentorship & Leadership: Guided participants in Dell's Hack2Hire program, helping them navigate the competitive tech environment.
  - Dell Technologies Development Program (ITDP): Successfully completed the program, gaining extensive training in technology development and innovation.
  - Dell Technologies Hack2Hire: Secured a job at Dell Technologies through outstanding performance in the Hack2Hire hackathon.
- **Industry & Community Engagement:**
  - Employee Resource Groups (ERGs): Actively contributed to Dell's DRC (Dell Recreational Club), TechCSR, and Women in Action (WIA), organizing multiple corporate events annually.
  - Model United Nations Youth Assembly (MUN) – Represented and engaged in global discussions.
  - Taylor's 10km Virtual Run – Demonstrated commitment to wellness and community engagement.
- **Hackathons & Competitions:**
  - Galactic Problem Solver – NASA Space Apps Challenge, October 2020.
  - Stellar Problem Solver – NASA COVID-19 Space Apps Challenge, May 2020.
  - NASA Space Apps Challenge – Participant, October 2019.
  - NASA International Hackathon – Participant, April 2017.
- **Academic & Research Achievements:**
  - Dean's List Award – Recognized for academic excellence, March 2020.
  - IIDEX Bronze Award – Innovation and research excellence, November 2020.

---

## EDUCATION

### University of Malaya (2024 – Present)

*Master of Software Engineering (Software Technology)*

### Taylor's University & UWE, Bristol (2018 – 2021) – Dual degree program

*Bachelor of Software Engineering & Bachelor of Science*
